Dear Friends,

On behalf of Alliansi Gerakan Reforma Agraria or Alliance of Agrarian Reform Movement (AGRA), a member of the Asian Peasant Coalition (APC) in Indonesia, we are writing you regarding the 7.3 earthquake that hit West Java on September 2.

One of the areas worst damage was Pangalengan, Bandung. Pangalengan is a strong mass base of AGRA, thousand of their members lived there. More than 80% of houses were destroyed affecting thousand farmers and their families including house of Rahmat, AGRA national officer.

**As of today 13 people were dead, and thousands were injured. People now lived in a temporary shelter and urgently need food (including baby food), milk, medicine, clothes and blanket.**

As a response, the People's Struggle Front (FPR) and AGRA set up a quick reaction team by sending volunteers and built temporary shelter for the affected people called JABAR BANGKIT (Humanitarian Center).
